GESHDO

Timur Ramazanov

"Think it, plan it, do it"

Summary

As a consultant, I am a highly motivated software developer with a strong passion for creating innovative solutions that make a real difference for clients. My programming journey started young, at age 13, guided by the belief: "If you need something that doesn't exist, build it yourself." This approach has helped me develop strong skills in software development, solving problems, and building applications that are easy for people to use, all to achieve great results.

Skills

Python · JavaScript / TypeScript · FastAPI · React · Tailwind CSS · MCP / Agentic AI · SQLAlchemy · Next.js · Microservices · Docker · Kafka · Git · GitHub Workflows · Swift · SwiftUI · GCP · Apache Airflow

Experience

Junior Software Engineer · Ingka Group (IKEA)

June 2026 - Present

OSPO · **CONTRACT**

Collaborating with Ingka's Open Source Program Office (OSPO) team, focusing on software supply-chain security and distribution and Open Source Software (OSS) adoption. Actively involved in prototyping open-source alternatives for proprietary solutions, reducing licensing costs and vendor lock-in

Python · Typescript · GCP · MCP SDK · Airflow · K8S · Ansible

IT Consultant · Geshdo AB

June 2026 - Current

EMPLOYMENT

Software Engineer Intern · Ingka Group (IKEA)

September 2025 - May 2026

OSPO · **INTERNSHIP**

Designed and built an enterprise-grade OSS security and compliance tool that aggregates multiple open-source security scanners and classifiers into a unified pipeline. The tool automates CVE detection and compliance verification (e.g., license compatibility), generating structured reports for developers and stakeholders.

Architected as a microservices pipeline deployed on Google Kubernetes Engine (GKE), it integrates with GitHub Actions and user interfaces to prevent non-compliant software from reaching production.

Python · Docker · GCP · Kafka · FastAPI · SQLAlchemy

Education

Bachelor’s degree in Software Engineering

Kristianstad University · 2024 - 2027

- Data Communication, Networks
- Object Oriented Programming in Java
- Database Technique
- Agile Development Methods
- Backend Development
- Computer Security
- Discrete Mathematics
- Algorithms and Data Structures
- Mathematical Statistics

Certificates

Google Cloud Platform Associate Cloud Engineer **2026**

Languages

Russian Native

English Advanced

Swedish Intermediate
